Flail Mower

AVAILABLE FOR 2T-30T

The Aussie Buckets Flail Mower is the ideal tool for clearing long grass, shrubs, and saplings on your property, roadside verges, ditches, and similar areas.

This flail mower offers versatility with two blade types: the standard Y-flail for lighter tasks such as grass cutting akin to a slasher, and the heavier hammer flail for tackling robust vegetation like bushes and saplings. Both blades are replaceable as required.

To ensure constant power and speed, the unit features a high-torque motor directly coupled to the main shaft within a protective casing, eliminating power loss from belts or gears.

It also includes a rear safety chain guard to reduce the speed and spread of ejected material during operation.

All Flail Mowers are backed by our 5-year warranty.

Flail Mower With Optional Self Levelling Bracket

Specifications

Tonnage (t)	Weight (kg)	Total Length (mm)	Total Width (mm)	Cutting Length (mm)	Shaft Diameter (mm)	Flow Rate (L/min)	Pressure (bar)
2 - 5	270	1100	800	640	411	40 - 45	160 - 200
5 - 10	350	1420	800	940	411	40 - 45	160 - 200
10 - 16	500	1420	900	940	496	90 - 100	160 - 250
17 - 36	650	1950	900	1440	496	90 - 100	160 - 250

Tonnage (t)	Back Pressure (bar)	Max Cutting Diameter (mm)	Y- Flail Blade Amount (pcs)	Hammer Flail Blade Amount (pcs)	Motor Displacement (cc)	Motor Type	Rotation Speed (RPM)	Rated Torque (Nm)
2 - 5	≤20	80	24	12	12	Swash Plate Motor	3500	38
5 - 10	≤20	80	36	18	12	Swash Plate Motor	3500	38
10 - 16	≤20	100	36	18	32	Swash Plate Motor	3000	160
17 - 36	≤20	100	56	28	32	Swash Plate Motor	3000	160

Features

Adjustable Bolt-On Head Bracket

Easily attach and secure the flail mower to your machine, offering compatibility and quick installation across all models and operational preference.

Optional Self Levelling Bracket

Provides a self-levelling function for the unit so the drums always parallel to the ground providing simpler on-site usage and removing unnecessary repositioning

Replaceable & Adjustable NM500 Skid Plates

NM500 Skid Plates enhance the protection and lifetime of the body of the unit, allows you to change the height of the unit and makes replacing them a quick and simple job in the event of excessive wear.

No Case Drain Line Required

With an internalised case drain, you only need one set of Auxiliary Lines to operate the attachment.

Hydraulic Hose Distribution Blocks

These blocks help protect the unit by managing routing the hoses through these blocks which prevents damage to important components from hose snagging, ensuring longevity and minimal maintenance.

Heavy-Duty Flail Knives & Hammer Flails

Offering 2 different blade options; Y Flail Blade which is better for cutting lighter material such as long grass; and the Haer Flail for chipping heavier material such as saplings, bushes/shrubs.
